

**RED FEATHER HISTORICAL TOUR  
HISTORY COMES TO LIFE IN BERTHOUD  
JULY 20, 2011**

Located in A.G. Bimson's historic blacksmith shop and Elmer Carlson's garage building, the Little Thompson Valley Pioneer Museum brings Berthoud's heritage to life. An array of exhibits reveals the town and surrounding rural districts as a bustling agricultural center of Colorado since the 1880s.

An elegant residence erected in 1916 by Berthoud's Dr. and Mrs. D.W. McCarty, the McCarty-Fickel Home is the setting of a historic house museum that explores the domestic, professional and civic lives of members of the McCarty and Fickel families from the 1890s to present—including the onsite medical office from the 1930s.
